

Fury™ 1500 P Burnisher

The Fury 1500 P delivers a perfect shine everytime.

Fury 1500 P

Pacific's Fury 1500 P burnisher is equipped with 1.5 HP motor, carbon brush wear indicator light, carbon brush rated for 3,000 hours of operation, flexible pad driver, sturdy steel handle for stability and control and ergonomic squeeze grips to minimize wrist fatigue associated with a twist-style actuator.

The Fury 1500 P burnisher is Pacific's value model and comes with a molded ABS base. This machine is built to take on the tough tasks yet put a brilliant shine on the floor after every use.

Call your Pacific distributor today for more information.

Product Features & Benefits

Brush Wear Indicator Light
Pacific's brush wear indicator light takes the guess work out of when carbon brushes need to be changed.

Non-marking Bumper
Pacific's non-marking burnisher bumpers are permanently attached by stainless banding and guides to ensure that the bumper does not come off or become dislodged.

Heavy Duty Housing/ Strain Relief
Durable cast aluminum switch housing and metal switch levers are designed for easy access and years of rugged use. The heavy duty strain relief also ensures trouble free operation.

Thick Base
The 1500 P ABS molding is .2890" thick and is perfect for contractors on the go.

Industrial Strength Bearings
All units carry dual, industrial grade, 4 point flange, self-aligning bearings. This system offers up to 5 times the service life of conventional roller bearings.

Heavy Duty Yolk
Pacific burnishers have sturdy, durable cast aluminum yolks to withstand the rigors demanded of your floor care equipment.
