

The Pacific Performance System

Maximize productivity with a simple hard floor stripping and finishing system.

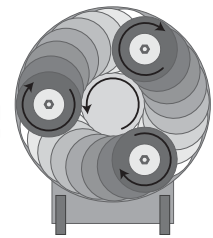

Step 1

Apply stripper to the floor with the **Aquadator 360**.

Step 2

Aggressively agitate after 10 minutes dwell time with the propane powered **MantaRay 30**.

4 Simple Steps

Step 3

Recover slurry rapidly with the **Gulper 360**.

Step 4

Burnish the floor with any Pacific **TigerRay 21", 24" or 27"** high speed burnishers.

The Pacific Performance System uses a combination of equipment to productively strip and finish floors. The integrated suite of products are either propane powered or manually operated. Batteries and cords are eliminated for maximum productivity.

The Aquadator 360 employs a unique adjustable application brush, which extends up to 52".

The MantaRay 30 covers up to 15,000 ft² per hour and has a unique dual direction scouring action. Its 200+ pounds of down pressure results in high productivity with no side torque.

The manually powered Gulper 360 can retrieve solution quickly and is up to 50% faster than other recovery methods.

Floors really shine when burnished by a Pacific TigerRay propane burnisher. The TigerRay series of propane burnishers are available in 21", 24" and 27" path widths.

See for yourself, contact us for a professional on-site demonstration today.

TECHNICAL SPECIFICATIONS

| | Aquadator 360 | Gulper 360 |
|--------------|------------------------|------------------------|
| Capacity | 36 gallon | 36 gallon |
| Reach/Width | 26"-52" | 30" squeegee |
| Construction | Polyethylene | Polyethylene |
| Productivity | 50,000 ft ² | 25,000 ft ² |
| Operation | Manual/Gravity | Manual/Pump |
| Warranty | 1 year | 1 year |
| Weight | 61 lb | 71 lb |

Product Features & Benefits

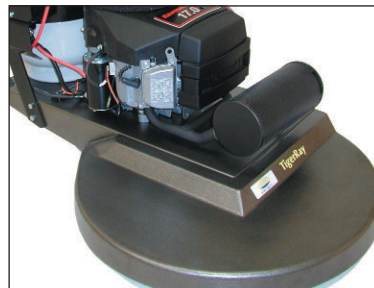

Aquadator 360
The adjustable solution delivery arm can reach from 26 to 52 inches and allows the operator to apply solution up to 50,000 ft²/hr.

MantaRay 30
This powerful stripper employs (3) 10" rotating stratagrit brushes. The rotation and flexibility of the entire satellite system allows the unit to operate torque free on uneven floors.

Gulper 360
Large 36-gallon recovery tank, cordless operation and mechanical pickup pump allow this unit to recover slurry quickly at a rate of 30,000 ft²/hr.

TigerRay 21, 24 and 27
Maximize burnishing productivity with either the 21, 24 or 27" path propane powered burnishers. These units feature safety regulators, low oil pressure shut off and low vibration levels.
