

ScrubMaster™ 210

The first “Ultra Quiet” compact scrubber
in the industry!

The ScrubMaster 210 is ideal for cleaning small-congested areas. The “ultra quiet” performance 65 dba conforms to the strictest noise regulations. This compact unit provides the operator an option of cleaning anytime without disturbing the occupants in the facility.

The machine is designed to handle the toughest deep cleaning tasks. The unit comes

equipped with two (2) maintenance-free lead acid batteries for reliable, productive cleaning.

The modular impact resistant, design gives the operator easy access to every component on the machine.

The ScrubMaster 210 is the perfect choice for “ultra quiet” cleaning.

ScrubMaster™ 210 Features & Benefits

The solution tank filler opening is at the front of the tank at the right height to use a bucket for refilling when there is not a hose available.

The pressure and angle of the squeegee can be easily adjusted. Two squeegee support wheels ensure smooth movement of the squeegee along the cleaning path.

The impact resistant and acid proof polyethylene recovery tank can be removed for easy cleaning.

The scrubbing head is equipped with two rotating brushes. These can be adjusted for tilt and are lifted by a pedal for easy machine transport and brush change.

Maintenance free batteries - no electrolyte ever needs to be added.
